Philadelphia business men have been agitating this move for more than a year. At the present time all the railroads centering here, the Baltimore and Ohio and the Reading, are under the control of the Pennsylvania Rufiroad, and there is not a shadow of combetition in passenger or freight rates. Business men believe that the city is also suffering as a seaport, and that the Pennsylvania influence is all exerted in favor of New York shipping.

TO IMPROVE PRESENT CONDITIONS. Attitude of Illinois Commission Not

In reference to the trip recently made by the Illinois and Missouri Warehouse and Railroad commissions and the committee of the Merchants' Exchange on the freight ongestion, over the terminals on both sides of the river, James S. chairman of the committee, addressed a letter to T. R. Ballard, president of the exchange yesterday in regard to the statement alleged to have been made by Chairman Neville of the Illinois Commission, in which Mr. Neville is quoted as saying that the conference with the committee amounted to nothing, and the exchange has filed no complaint.

Mr. McClellan states in substance that if the Terminal plans are carried out there is a bright future ahead, but immediate relief is needed, and the two commissions were invited to look over the situation by the exchange, believing the present conditions can be very materially improved upon. The committee did not feel that it was called upon to gather evidence with a view of convicting any one, but only to aid in bringing about a better condition of affairs.

In closing, Mr. McClellan says:

"We are pleased to say that we have the positive assurance from the Railroad Commissioners of Missouri that they will do everything within their power to aid in the betterment of affairs on the West
